

**CCCAOE
BOARD REPORT
March 16 & 19, 2010
Hilton Financial District Hotel, San Francisco**

Person submitting report: Fred Allen (Michelle Turner)
Office/Region/Committee/Organization: VP - San Diego/Imperial Counties
Date submitted: 3/11/2010

SUMMARY of Region Activities (and include *Relevance to CCCAOE Work Plan*)

January 2010, The Regional Occupational Deans reviewed marketing materials developed from the Regional Consortia Collaborative for Demonstrating and Coordinating Innovative Partnership Practices focusing on Green Technology. Besides having these marketing materials in print form, the Regional Consortium, Workplace Learning and Small Business Development Centers placed information about green careers on their websites. Palomar College was awarded a mini-grant to work on expanding the Teacher Preparation Training for CTE Faculty. A subgroup was formed to review suggested ways to make Teacher Training more effective in the region. The Regional Occupational Deans also discussed the impacts of the proposed resolution by the Academic Senate regarding eliminating the equivalency for CTE faculty.

February 2010, The Regional Occupational Deans met with the Regional CIOs to discuss ways to make the region more efficient. Suggested action was creating a subgroup to conduct a needs assessment by examining current CTE programs, review labor market through Centers of Excellence, and conduct dialogue on how to provide capacity within the region. The Regional Occupational Deans should assist the Regional CIOs by being prepared to know how to grow but also which program to delete in order to maintain sustainability.

New Programs Endorsed within the Region (Vice Presidents ONLY)
